PROFESSIONAL PROFILE

Motivated Software Engineering undergraduate and full-stack developer with hands-on experience building scalable MERN-stack web applications, automated bots, and machine learning-powered tools. Proficient in JavaScript, Python, C#, and Java development, REST API design, and database management. Adept at working independently and collaboratively, with a strong drive for continuous learning and professional growth. Seeking a software engineering internship to apply and expand technical skills within a professional engineering team.

TECHNICAL SKILLS

- **Programming Languages:** - JavaScript, Python, Java
- **Frontend Development:** - React.js, HTML5, CSS3, Bootstrap
- **Backend Development:** - Node.js, Express.js, REST APIs
- **Databases:** - MongoDB, MySQL
- **Machine Learning & Data Science:** - TensorFlow, Pandas, Scikit-learn
- **Tools & Platforms:** - Git, GitHub, Linux/Ubuntu, Postman, Figma

PROFESSIONAL EXPERIENCE

Supervisor

2022-2023

Aryans Electronics

- Managed day-to-day shop maintenance and operations to ensure a seamless customer experience.
- Led sales management initiatives and consistently tracked performance to meet or exceed daily targets.
- Coordinated staff responsibilities and maintained a productive, organized retail environment.

Digital Manager

2023-2024

Medi Plus

- Managed the official Facebook page, serving as the primary digital touchpoint for the brand.
- Handled incoming customer inquiries, moderated community comments, and streamlined the order placement process.
- Developed and executed social media strategies to boost engagement and grow the brand's online presence.

QA Hackathon Participant & Industry Field Visit – 99x Technology

99x Technology

2026

- Participated in a Quality Assurance (QA) hackathon at 99x Technology, collaborating with teams to identify software defects, perform testing activities, and propose quality improvement solutions.
- Gained practical exposure to software development, QA processes, agile practices, and industry-standard engineering workflows through an on-site field visit.

TECHNICAL PROJECTS

Hardware Bottleneck Analyzer

May 2026 – July 2026

Self-Directed Project | MERN Stack + Python + Machine Learning

- Built a decoupled, full-stack application replacing static PC bottleneck calculators with dynamic machine learning predictions.
- Trained and deployed a Random Forest Regressor through a Python REST API to predict gaming performance with over 95% accuracy.
- Designed a responsive React frontend that consumes the ML API and delivers real-time hardware analysis results.

TogetherWerise – Community Fundraising Platform

April 2026 – Present

Full-Stack Project | MERN Stack

- Developed a professional community fundraising web application using the full MERN stack (MongoDB, Express, React, Node.js).
- Built a responsive user interface ensuring seamless navigation and accessibility across desktop and mobile devices.
- Implemented secure user authentication, campaign management, and donation tracking features.

Aura Bot – WhatsApp Automation

August 2025 – March 2026

Self-Directed Project | Node.js

- Engineered and deployed an automated WhatsApp bot using Node.js and the Baileys library.
- Programmed custom functionalities including auto-replies, group administration commands, and dynamic resource distribution.
- Delivered a reliable, scalable bot solution capable of handling concurrent users and multiple group environments.

EDUCATION

Higher National Diploma in Information Technology (Undergraduate)

Present

Sri Lanka Institute of Advanced Technological Education (SLIATE)

G.C.E. Advanced Level – Technology Stream

2022 / 2023

Results: 2 C, 1 S

English Language Skills for Employment

2023

University of Moratuwa

CERTIFICATIONS

- Electrical & Computer Hardware Engineer Cisco (2026)
- Linux Essentials Certification – Cisco (2026)
- Certified Network Professional (CCNP) – Cisco (2025)
- IT Essentials – Cisco (2025)
- Introduction to Figma – Simplilearn (2025)
- Web Design Basics – University of Moratuwa (2024)

SOFT SKILLS & LANGUAGES

Soft Skills:

- Problem Solving
- Team Collaboration
- Communication
- Self-Learning, Time Management
- Analytical Thinking

Languages:

- Sinhala (Native / Bilingual)
- English (Professional Working Proficiency)
